

K-6 Permission to Access SeeSaw

Epping North Public School is committed to providing a technology rich environment for our students. We believe the innovative use of Information Communication Technology (ICT) is fundamental to learning and teaching, and that ICT empowers students to connect meaningfully with all areas of the school curriculum.

SeeSaw is a digital student portfolio and teacher-moderate online learning environment. Teachers and students can post lessons, work samples, photos, videos, voice recordings, web links and other digital files to a secure SeeSaw classroom and can retrieve, edit and build upon work across multiple devices throughout the school year. Teachers are the moderators in this online space and must approve any student post before it will appearing their classroom feed view.

As a shared digital portfolio, SeeSaw is a platform to spark classroom conversations about goal-setting and to celebrate student success. It's an important collaboration tool that connects peers and teachers and offers an important, evidence-based record for teachers to recognise and assess quality work.

Success at school is always best when it is shared with home and we are proud to offer you access to your child's digital portfolio via the SeeSaw app. Through the SeeSaw Parent app, you can view posts made by your child and post comments on their progress. You won't be able to access or comment on the posts of other children, except for collaborative working involving your child with other children. This is a forum for positive feedback and will be moderated by the classroom teachers.

Please return this permission slip to your child's class teacher as soon as possible.

Upon receipt of all class permission slips, your child will be given a QR code to access your child's portfolio through the SeeSaw app.

Yours sincerely

Alex Montgomery
Acting Principal

Epping North Public School Permission to Access SeeSaw

- I consent to my child using SeeSaw
- I do not consent to my child using SeeSaw

For the purpose of: Accessing the SeeSaw platform to create and track individual learning goals.
